

This letter is to address the impacts of LPFM on current translator service, specifically the impacts to K-LOVE Christian radio. K-LOVE radio is an integral part of the North Pole community and provides alternative music choices to all individuals in the Fairbanks - North Star Borough. Displacement of K-LOVE broadcast for other programming would eliminate the sole Christian radio music station from the air. K-LOVE provides alternative music with positive messages for families removing it from the air would have a degrading impact on music choices for my community.
